

by Eduard Gercog

A natural layout with a focus on different shapes and colours. Even though the aquarium is full of colours, the plants used are relatively easy to care for. The aquarium is maintenance-friendly and will reach balance fast owing to many plants and a good composition of fast-growing plants at the back and front, and stable, easy plants in the middle of the aquarium.

Technique

Aquarium:	GLASS TANK
Volume:	180 L
Light:	T5 6500K 2 x 39W, 7 hours daily
Gravel:	Grain size 0.8-1.2 mm
Filter:	Eheim 2076e 1350 l/h
CO2:	3 bubbles per second
Fertiliser (weekly):	Premium Fertiliser 50 ml
Maintenance (hours per week):	½-1

Plants used in this layout

A)	Anubias barteri 'Petite'	(101H)	4 pcs.
B)	Bolbitis heudelotii	(006)	2 pcs.
C)	Cryptocoryne wendtii 'Green'	(109)	3 pcs.
D)	Cryptocoryne x willisii	(107)	3 pcs.
E)	Helanthium bolivianum 'Quadricostatus'	(068)	5 pcs.
F)	Eleocharis parvula	(132C)	10 pcs.
G)	Hydrocotyle tripartita	(039B)	3 pcs.
H)	Ludwigia repens 'Rubin'	(033D)	3 pcs.
I)	Microsorium pteropus 'Narrow'	(008A)	2 pcs.
J)		()	1 pcs.
K)	Myriophyllum mattogrossense	(037)	4 pcs.
L)	Nymphaea lotus	(019)	2 pcs.
M)	Vesicularia ferriei 'Weeping Moss'	(003B POR)	5 pcs.
